Good news from our Schools and Services

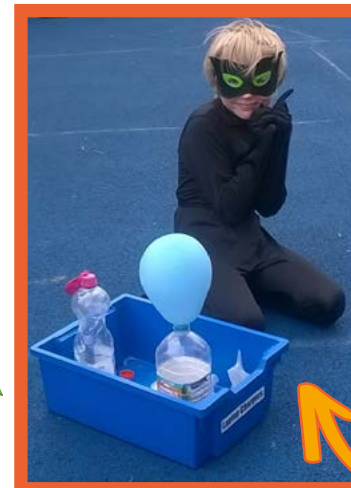

Indoor exercise is fun!

Online comic book club catch up.

Our pupils have been busy planting at home.

Some of our lessons have been happening online, so that pupils at home can participate too. Practical experiments in the playground followed one science lesson, for our pupils/superheroes who are in school.

Fantastic bird feeder built by a pupil for bird watching with his dad from their balcony. Look at this awesome jay enjoying a snack!

Wow!

Additional vegetable growing beds, a green house and amazing vertical planters built by our incredible pupils from recycled materials have been installed in one of our school's grounds.

@TCESgroup

@TCESGroup June 23

We'd like to extend a HUGE belated "Happy Birthday!" to our wonderful Patron, Dame Esther Rantzen, who celebrated her 80th birthday yesterday.

Thank you for your ongoing support, we really appreciate everything you do for us!
